Subject: Declaration of Conformity to the REACH Regulation (EC) No. 1907/2006 and subsequent amendments

Sagicofim S.p.A. confirms that its products comply with Regulation (EC) No. 1907/2006 and subsequent amendments (REACH - Registration, Evaluation, Authorisation and Restriction of Chemicals), which entered into force in the European Union on June 1, 2007.

The products that Sagicofim places on the market are all classified as "articles" under Art. 3, point 3, of the aforementioned Regulation, as they are: "objects which during production are given a special shape, surface or design which determines their function to a greater degree than does their chemical composition (REACH Art. 3, paragraph 3)".

Regarding these articles, the company declares the following:

- The articles do not contain Substances of Very High Concern (SVHC) included in the "Candidate List" published by ECHA, updated as of 02/2026, in a concentration above 0.1% by weight (w/w).
- Consequently, the articles we produce are exempt from the SCIP registration obligation and the obligation to inform the market regarding safe use, as indicated by Art. 33 of the Regulation.
- The articles do not contain substances subject to restriction or prohibition listed in Annex XVII or Annex XIV.

Furthermore, as a "downstream user", Sagicofim S.p.A. has activated the procedures required by the REACH Regulation within its supply chain, requesting updated documentation regarding purchased raw materials and semi-finished products from suppliers.

Sagicofim S.p.A. constantly monitors regulatory updates and ECHA publications, committing to update this declaration and promptly inform customers should there be any relevant changes for the supplied products.
